RESOLUTION 04-18

A RESOLUTION AMENDING THE WEST BRADFORD COMPREHENSIVE PLAN OF 1989 BY ADOPTING CREATING CONNECTIONS: COUNTRY PATHS & VILLAGE SIDEWALKS – A GREENWAYS, TRAILS, AND GATEWAYS PLAN FOR WEST BRADFORD TOWNSHIP AS A COMPONENT, AND REVISING CERTAIN SECTIONS

WHEREAS, the Board of Supervisors of West Bradford Township did appoint a task force to develop a Greenways, Trails, and Gateways Plan; and

WHEREAS, that task force did create a plan pursuant to that mandate; and

WHEREAS, it was determined that certain sections of the Comprehensive Plan's transportation section were in need of updating; and

WHEREAS, a copy of the amendments were sent to the County of Chester, Downingtown Area School District, East Caln Township, East Bradford Township, Borough of Downingtown, Caln Township, East Fallowfield Township, Newlin Township, and Pocopson Township for review and comment;

WHEREAS, at least 45 days have passed for review by these entities; and

WHEREAS, a public hearing was held on April 28, 2004, pursuant to public notice.

***NOW THEREFORE, BE IT AND IT IS HEREBY RESOLVED,** by the Board of Supervisors of West Bradford Township that Creating Connections: Country Paths & Village Sidewalks – A Greenways, Trails, and Gateways Plan for West Bradford Township dated June 2004, be adopted as an amendment to the Comprehensive Plan of 1989.*

***FURTHER,** Chapter 5 – Roadway Conditions, be amended by:*

- 1. Deleting those items that conflict with and substituting the contents of the Township's Act 209 Transportation Impact Fee Study's Roadway Sufficiency Analysis and Transportation Capital Improvement Plan, most recent revision; and*
- 2. Revising the sections entitled Road Description by Functional Class and Table 5-1 to the following:*

Road Description by Functional Class

Roads have a hierarchy based on their capacity, mobility, and access. This hierarchy divides roads into functional classifications. The Township designates roadways into these categories: Principal Arterial, Minor Arterial, Major Collectors, Minor Collectors, and Local Roads. Local Roads are further categorized into Primary Distributors, Secondary Distributors, and Local Access Streets.

Major Arterials move large volumes of traffic at higher speeds. Access points to these roadways are limited. On street parking is prohibited and the shoulders and lanes are wide. They serve traffic on an inter-regional basis and have mostly through trips. PA Route 322 (Downingtown Pike) is the only Major Arterial in the township.

Minor Arterials move large volumes of traffic at moderate speeds. On street parking is prohibited and access is controlled. They serve traffic on an inter-county basis and connect destinations that support regional activities. These roads frequently span longer distances and primarily support medium distance trips. Marshallton-Thorndale Road and Strasburg Road are examples of minor arterials within the township.

Major Collectors carry relatively large traffic volumes at moderate speeds. These roads often connect residential areas with employment and commercial centers. Access controls are usually included although access to adjacent land uses is provided. These roads frequently span longer distances, but primarily support short distance trips. Shadyside Road is an example of a major collector within the township.

Minor Collectors gather traffic from local roads and direct it to the major collectors. Volumes and speeds are relatively low on these roads since access is the predominant function. Minor collectors provide access to local facilities and provide connections to and between residential neighborhoods. Romansville Road, West Chester Road, and Embreeville Road are examples of the minor collectors within the township.

Local Roads represent the largest portion of roads within the township. They are primarily Township owned and tie the circulation network together by providing the greatest degree of access from adjacent properties. This lowers the rate of speed and amount of traffic on these roads. Local roads have been further sub-classified into three categories: Primary Distributors, Secondary Distributors, and Local Access Streets.

Primary Distributors are the highest order local roads and move traffic from lower order local roads to collectors. They generally have no parking and their points of access are more limited. Broad Run Road, Poorhouse Road, Leids Road, Stargazer Road, Chestnut Lane, Stouff Road, and South Bailey Road are examples of primary local distributors.

Secondary Distributors are the middle order local roads. They move traffic from local access streets to higher order roads. They may allow parking, may have one-way restrictions, and have more access points. Gallagherville Road and portions of Lone

Resolution 04-18

Eagle Road, Cranberry Lane, and Persimmon Drive are examples of secondary local distributors.

Local Access Streets serve no through function, carry low traffic volumes, and serve a limited number of dwelling units. Examples of local access streets are Canyon Drive, Hilltop Road, Hillcrest Lane, Fox Run Drive, Oakwood Road, Youngs Road, Hunt Drive, Overlook Drive, Sunset Drive, Margaret Drive, Marion Drive, Berue Drive, and portions of Lone Eagle Road, Cranberry Lane, and Persimmon Drive.
