- B. Principal Building - Any building or structure erected on a tract, lot or parcel of land on which any use is carried out, except an accessory building. Including a dwelling, place of business or industry, or any other use requiring a location identity, which has been assigned a postal address by the municipality.

III. ASSIGNMENT OF NUMBERS

- A. Street address numbers shall be assigned to each principal building, tract, lot or parcel of land, placed on file in the township office and assigned to the owners or occupants of such principal buildings, tract, lot or parcel of land by the township manager, or by such other person as may be designated by resolution of the Board of Supervisors. Once assigned, all such properties shall be designated for all purposes by the number assigned, and thereafter all persons shall take due notice thereof and comply with the provisions of this ordinance, when applicable.
- B. The township manager, or such other person as may be designated, shall have the power and duty to correct any errors with respect to assignment of street address numbers, as and when such errors are discovered. The Board of Supervisors shall have the right and power to change a street address number or

numbers assigned to any property whenever the Board of Supervisors may deem such a change necessary and desirable, and require the owner or the occupant thereof to comply with the provisions of this ordinance with respect to such change.

IV. APPLICATION FOR STREET ADDRESS NUMBER

The owner or occupant of each principal building, tract, lot or parcel of land to which no street address number has previously been assigned shall, upon purchase, acquisition or occupancy thereof or within seven (7) days of discovery that no such number has been assigned, make application to the township manager or his designated agent for assignment of a street address, and the township manager or his designated agent, shall assign a correct street address number to such property.

The decision of the township manager or the manager's authorized agent in connection with the assignment of numbers, shall be final.
- B. When the assignment of street address numbers, as required pursuant to Subsection A hereof, has been completed and signed by the township manager, such numbers shall be appended to the final subdivision plan and thereby incorporated therein by reference. numbers shall be sufficiently legible as to contrasting background, arrangement, spacing, size and uniformity of numerals so that the numbers may be read with ease during daylight hours by a person possessing normal vision, as viewed from the center line of the street facing the front of the property. The numbers shall be placed so that trees, shrubs and other obstructions do not materially block the line of sight of the numbers from the center of the street to any appreciable degree.

When required by this ordinance, auxiliary numbers shall be mounted at a height between four (4) feet and ten (10) feet upon the adjacent grade or exterior landing beneath, but never higher than fifteen (15) feet above adjoining grade.
