

DROP-OFF RECYCLING

Cardboard

Heavy (corrugated) cardboard may still be dropped off by residents at the Township's Public Works Garage. Follow the signs on the municipal campus for the drop-off location. All cardboard must be flattened and placed through the slots in the fence. (Depositing of trash and other materials not currently accepted at the Campus drop-off facility is strictly prohibited.) Remember that cardboard is also collected curbside in your yellow-lidded recycling toter. Just flatten and cut to fit loosely so as to not jam the toter.

Heavy cardboard may also be dropped off at The Lanchester Landfill in Honey Brook. For more information, contact the Lanchester Landfill at 610-273-3771 or at chestercountyswa.org.

Glass

Brown and green glass bottles and jars may still be dropped off at the Township's Public Works Garage, even though they are collected curbside. Follow the signs on the Township Campus for the drop-off location. (Depositing of trash and other materials not currently accepted at the Campus drop-off facility is strictly prohibited.)

We do our best to keep these drop-off facilities as neat and clean as possible and ask for your assistance in this endeavor. Please realize that drop-off areas are monitored and anyone caught dumping trash or other material is subject to fine.
