"BETWEEN THE BRANDYWINES"

A History of West Bradford
by Catherine Quillman

Tucked away into a corner of the Brandywine Valley lies pastoral West Bradford. Its rolling farmlands and winding streams have been home to the Lenape Indians, Quaker settlers, and Revolutionary leaders. Its cast of characters, including scientists, inventors, artists, explorers and movie stars, shaped events that spurred Methodist "Thunder" revivals, the Association for the Detection of Horse Thieves, and an unexpected landing by Charles Lindbergh. Recall cattle drives through Marshallton, taking the stage to West Chester and hunting raccoons along the Broad Run. Discover its story.

The final version of the book contains more than 400 pages and has over 250 photos, maps, and drawings. This great book is available at the Township Office.
