

Residents are reminded that the burning of leaves and other yard wastes is illegal within West Bradford Township. Backyard recreational fires ignited within an outdoor fireplace or other approved device designed to contain the fire are permitted. The Township Fire Marshal may declare a burning ban on all materials when dry conditions warrant. In the event the West Bradford Fire Company is dispatched to a burning complaint, the officer on scene may require all burning to cease if a dangerous condition persists or the fire has become a public nuisance. Please monitor the National Weather Service for red flag warnings, the PA State Fire Wardens website or the township website for notifications on whether a burning ban has been declared.
