

Catching The Sun

Wednesday, August 22nd

7:00 – 8:30 pm

West Bradford Township Building (Meeting Room)

1385 Campus Dr., Downingtown, PA 19335

West Bradford Township is pleased to host a viewing of the film, *Catching the Sun*, an exciting documentary that explores the global race to a clean energy future.
(Check out the trailer at catchingthesun.tv.)

Many of us would prefer to use energy that is clean, healthy, and affordable, but we are not clear about how to do it. *Catching The Sun* sheds light on the path to an economically just and environmentally sustainable future. Transitioning to powering our economy via renewable energy isn't only about creating the life-saving solutions that we desperately need to combat climate change, it's about unleashing human imagination, innovation, national competitiveness, and the largest wealth creation opportunity of our time. Right here in Chester County, municipalities have already passed resolutions to transition to renewables in the next 15 years. *Catching the Sun* can help us all brainstorm about the amazing possibilities in our own West Bradford backyards – and rooftops.

Join us on August 22nd for this inspiring film and learn about what we can do in our own community to advance the transition to clean energy.
