

The Latest News from the Land Preservation & Sustainability Committee (LPSC)

In just two years since West Bradford Township (WBT) residents approved the Open Space referendum, 332.34 acres have been conserved for open space. These newly preserved acres represent 3% of West Bradford's total township acreage. Interest among landowners to conserve their land is high. The Township is in discussions with many landowners who understand the benefits of conserving open space for their families and the entire community and want to leave an enduring legacy for generations to come. If you are interested in finding out about options available for land conservation, please call or email Justin Yaich, Township Manager at (610) 269-4174 or jyaich@westbradford.org.

As a reminder, the LPSC is forming a Sustainability Subcommittee to assist in the effort to educate and inspire WBT residents to become more sustainable. We welcome residents interested in supporting these efforts to join the subcommittee. If you are interested in participating, please contact Meg Kramer, Chair of LPSC, at megmkramer@gmail.com.

Look for new and exciting LPSC events in 2020 including a spring event introducing a new trail in WBT and several environmental educational programs.
